

Introductions

About Me

- Software generalist
- Modern web enthusiast
- Recovering Microsoft partisan

Agenda

1. Lorem
2. Ipsum

Goals

1. Good parts
2. Best practices
3. Where to get help

1. Struggle
2. Repetition
3. Articulation

Beer Party Strategy

- Better too much beer than not enough
- Light coverage for
 - Inapplicable
 - Unimportant
 - Boring
- Heavier coverage where it matters

Grandma Stolfus

[Learning React] is like basketball: it takes a lot of practice to do well.

- This approach emphasizes practice in learning Powershell by coding up implementations.
- Advantages
 - You'll remember more
 - Some patterns can be tricky to implement

Assumptions About You

- You know the basics of
 - Typescript / JavaScript
 - Html
- More is better
- Less is ok too

What I Need

- Feedback
- Questions
- ~~Cameras~~

Tools You *Need*

- **Local**

- Git
- NodeJs

- **Online**

- (Use online thing. TODO: flesh this out.)

(Local) Tools You ***Want***

- Visual Studio Code
- On the metal
 - Extension: Prettier
- In a container
 - Docker
 - Extension: Remote Container

Materials

- Consist of
 - Slides - HTML & React
 - Labs - React
 - Demos
- Won't last forever
- Moving target
- Live here: <https://github.com/bathcat/fiestr>

Introductions

- Name
- Background
- Expectations
- Childhood career ambitions

Housekeeping

- Hours
- Restrooms
- Phones
- Breaks
- Food
- Coffee
